Test Script Description: Equipment Inquiry (P1201)

RFgen Input Requirements

Before you begin testing, ensure, for all equipment numbers you will be testing, that the following is setup in EnterpriseOne or PeopleSoft World.

- a. Company
- b. Responsible Business Unit
- c. Cost Business Unit
- d. Cost Object
- e. Cost Subsidiary
- f. Location (business unit)

JD Edwards Processing Option Settings

Enter the Processing Option values, which correspond, to the version you selected for testing.

JDE Version: ZJDE0001_____

Tab	Processing Option Description	Value

Execution Procedures

ID	Test Case	Expected Result	Pass	Fail
1	Type in an Item Press the ENTER key	RFGEN will validate and accept the item number entered—if the item number is invalid, an error message will be displayed.		
2	Press the "F1" key with the cursor in the Item field to select and return an Item	RFGEN will display a list of item numbers and when selected, the item number will be returned to the Item field—if the item number is invalid, an error message will be displayed.		
3	After reviewing the Equipment Inquiry display	Confirm the Equipment Inquiry results
