## FFATR0100 – Fixed Assets Location Transfer

Transfer Fixed Asset

From

Loch

Asset#

or

Unit#

Exhaust Fan

Qty: 1

To

To Loch

Date eff

Time eff

Enter to Accept

This transaction transfers fixed assets either by Asset# or Unit# from one location to another. The system uses the location information entered to update the Location Tracking table (F1204).

The following conditions apply to the RFgen implementation for the Information Entry transaction within the EnterpriseOne environment.

Note: any of these parameters may be easily adjusted to meet the unique requirements of your company.

## ✓ Validations

Prompt	Table	Field
Locn	F0006	MCMCU
Asset#	F1201	FANUMB
Unit#	F1201	FAAPID
To Locn	F0006	MCMCU

## ✓ Edits

Condition	Table

## ↔ Function Keys

Key	Function
F1	Search Data for Current Field
F2	Refresh the Current Screen Display
F3	
F4	Exits Transaction

## Considerations

1. What EnterpriseOne version is used to process the Location Transfer transaction?
2. What processing options have been set to process Location Transfer?
3. Will Transfer Numbers be entered or defaulted using next number?

## EnterpriseOne Programs – Reference

Application Name(s)	Code	Table
Work with Locations	P12215	F1204

## EnterpriseOne Location Transfer: P12215

The screenshot displays the 'Interactive Versions - [Location Transfer]' application window. The form contains the following fields:

- To Location: 30
- Transfer Number: [Empty]
- Effective Date: 3/17/2011
- Beginning Time: 12:00:00
- From Location: M30

Below the form is a table with the following data:

Equipment Number	Equipment Description	Location	Location Description	L C	Begin Date	Begin Time	Ending Date	End Time
1005	Teleton 6800 Server	50	Project Management Company C			00:00:00		00:00:00

## How JD Edwards® Processing Option affects RFgen

This documentation explains which of the JDE Processing Options are used by RFgen and how the red highlighted Proc.Options effect the RFgen script.

## Affected RFgen Forms and Transaction Macros

Description	Form Name	Transaction Macro Name
FA – Transfer Fixed Asset	FFATR0100	TFATR0100

## Setup an RFgen Menu

To implement an RFgen Form using JDE Processing Options in an RFgen Menu the JDE Version needs to be specified.

Enter the Form name, followed by a Space. Enter “-Vers=” and the JDE Version.

Form/Menu	Description to Display
FFATR0100 -Pgm=P12215	2-Location Transfer

## Processing Options: P12215 Work with Locations

```
----- <-- Update -->
0001 1 1> Location                                --> [ ]
----- <-- Versions -->
0002 2 1> Asset Master (P1201)Version             --> [ ]
0003 2 2> Location Transfer (P12115)Version       --> [ ]
```

## Test Script Description: Transfer Fixed Asset (P12215)

### RFgen Input Requirements

Before you begin testing, ensure, for all equipment numbers you will be testing, that the following is setup in EnterpriseOne or PeopleSoft World.

- a. Asset Number / Unit Number
- b. (From) Business Unit – Location
- c. (To) Business Unit – Location

### JD Edwards Processing Option Settings

Enter the Processing Option values, which correspond, to the version you selected for testing.

**JDE Version:** ZJDE0001\_\_\_\_\_

Tab	Processing Option Description	Value

## Execution Procedures

ID	Test Case	Expected Result	Pass	Fail
1	Type in a (From) Location _____ Press the <b>ENTER</b> key	RFGEN will validate and accept the location entered—if the location is invalid, an error message will be displayed.		
2	Type in an Asset _____ Press the <b>ENTER</b> key	RFGEN will validate and accept the asset entered—if the asset is invalid, an error message will be displayed.		
3	Type in a Unit _____ Press the <b>ENTER</b> key	RFGEN will validate and accept the unit entered—if the unit is invalid, an error message will be displayed.		
4	Type in a (To) Location _____ Press the <b>ENTER</b> key	RFGEN will validate and accept the location entered—if the location is invalid, an error message will be displayed		
5	Type in a Date _____ Press the <b>ENTER</b> key	RFGEN will accept and format the date entered.		
6	Type in a Time _____ Press the <b>ENTER</b> key	RFGEN will validate and accept the time entered—if the time is invalid, an error message will be displayed		
7	Press the “F1” key with the cursor in the From Loc field to select and return a location	RFGEN will display the current location and when selected, the current location will be returned to the ‘from loc’ field—if the location is invalid, an error message will be displayed.		
8	Press the “F1” key with the cursor in the Asset# field to select and return an asset number	RFGEN will display a list of assets and when selected, the asset number will be returned to the Asset number field—if the asset number is invalid, an error message will be displayed.		
9	Press the “F1” key with the cursor in the Unit# field to select and return a unit number	RFGEN will display a list of unit and when selected, the unit number will be returned to the Unit number field—if the unit number is invalid, an error message will be displayed.		
10	Press the “F1” key with the cursor in the To Loc field to select and return a location	RFGEN will display a list of locations and when selected, the location will be returned to the ‘to loc’ field—if the location is invalid, an error message		

		will be displayed.		
11	At the RFGEN "Enter to Accept Prompt" the transaction is added to the Enterprise One/PeopleSoft World	Confirm the location transfer results
