FIMQI0200 – Location Inquiry by Material

This transaction displays inventory locations by material with the current quantity on hand. If the material is batch controlled, entering the quantity will reflect that batch's on hand quantity.

If Avail is checked, the quantities will adjust to show all quantity on hand with the exception of those materials that are soft or hard committed.

The following conditions apply to the RFgen implementation for the Location Inquiry by Material transaction within the SAP environment.

Note: any of these parameters may be easily adjusted to meet the unique requirements of your company.

✓ **Validations**

Prompt	Method of Validation
Plant	T001W table
Material	BAPI_MATERIAL_GETLIST
Batch	BAPI_MATERIAL_GETBATCHES

↔ **Function Keys**

Key	Function
F3	Exit
F4	Search Data for Current Field
F8	Submit value for the Current Screen Display

SAP Programs – Reference

SAP Stock Overview: MMBE
